

# Women in Orthopaedics Surgical Skills Course

March 11 & 12, 2022  
Phoenix, Arizona

 acumed®

*Modern Solutions for Upper Extremity & Shoulder Girdle Trauma*

## Course Overview

This two-day course will include didactic lectures, in-depth case discussion, and cadaveric lab practice. Our expert faculty will guide attendees through current challenges facing women in orthopaedics, discuss advanced treatment options, and share their clinical experience, tips and pearls. Course content will be focused in the upper extremity and will feature an optional session on rib trauma.

## Target Audience

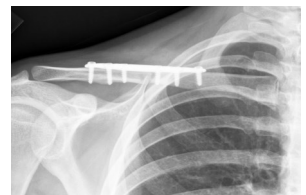

This surgical skills course is intended for practicing female orthopaedic surgeons with experience treating upper extremity trauma injuries who are looking to learn advanced treatment options. Course content is also relevant for traumatologists or generalist interested in learning advanced treatment options for traumatic injury fracture patterns.

## Course Topics

- ◆ Metacarpal IM Treatment with Headless Compression Screws
- ◆ Small Joint Fusions | Fusions of the Hand and Fingers
- ◆ Complex Distal Radius Fracture Management
- ◆ Forearm Fractures & IM Fixation
