

Chest Wall Stabilization  
Surgical Skills Course

May 6, 2022  
Charleston, SC

+ acumed®

## Course Overview

This one-day course focuses on current issues trauma and thoracic surgeons face. It will include hands-on cadaveric lab practice, didactic lectures, and in-depth case discussions. Our expert faculty will guide attendees through challenges, discuss advanced treatment options, and share their clinical experience, tips and pearls related to chest wall stabilization.

## Target Audience

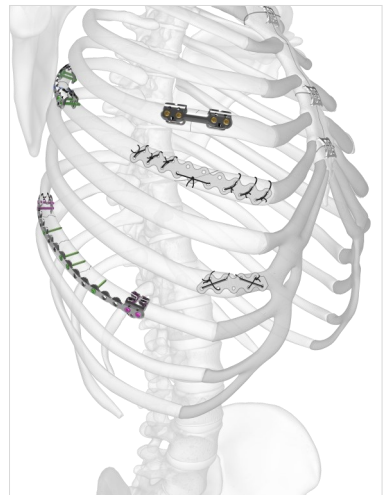

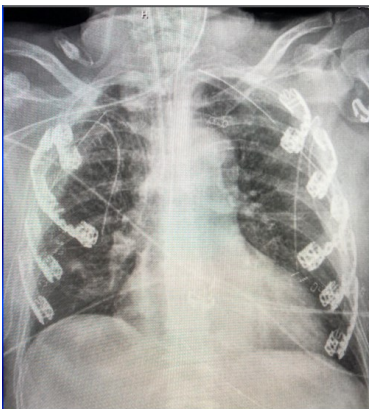

This surgical skills course is intended for practicing trauma, acute care, emergency, thoracic, cardiothoracic, or general surgeons with experience treating chest wall trauma injuries who are looking to learn advanced treatment options.

## Course Topics

- ◆ Rib Plating Patient Selection
- ◆ SSRF Approach and Technique
- ◆ Challenges and Pitfalls
- ◆ Chest Wall Reconstruction
- ◆ Pectus Repair
- ◆ Complex Case Review

## Surgical Skills Products

- ◆ BioBridge Resorbable Chest Wall Plate
- ◆ RibLoc U Plus Chest Wall Plating System
- ◆ U Plus 90 Instrumentation System

## Course Faculty
